[The Critical Thinking Barometer](#)

"The 2024 edition of the Barometer, realized by OpinionWay for Universcience, questions the relationship of our fellow citizens to AI. How do the French use artificial intelligence and its applications today? What trust do they have in it, and how do they see its future? Is artificial intelligence a threat or an opportunity?"

[BigFlo and Oli experiment with AI to make a music](#)

"We deliberately used artificial intelligence because the track is about humanity's ever-faster advances and how far they could take us. We thought the use of artificial intelligence for this video was an interesting way of reflecting on the artist's future amid all this."

1 quotation:

["El Mahdi El Mhamd](#)

"When we think AI nowadays, we think chatGPT. But the most important AIs in terms of social impact are the social networks' algorithmic recommendation systems".
